SERVICE SHEET No. 17. ✓

"SERVICE."

October, 1930

Engine and Frame Numbers.

In future a new series of key letters and numbers will be used for marking the Engines and Frames of B.S.A. Motor Cycles. For 1931 Season it will be seen that the key letter will be "Y." For subsequent seasons the index letter will be altered.

When ordering spare parts for B.S.A. Motor Cycles, it is essential that the engine and frame numbers are given in full, thus Engine No. Y6-101, Frame No. Y5-101 would indicate that replacement parts are required for a Model L31-6 3.49 h.p. O.H.V. Motor Cycle.
