SERVICE SHEET No. 8A.

"SERVICE."

May, 1930.

New Type Rear Number Plates.

In view of the amended regulations respecting identification marks which will be brought into operation on the 1st October next, we are now in a position to supply from stock the larger pattern rear number plate that will be necessary to comply with the new requirements of the Law.

Below are given the component numbers of these new plates, and which are suitable for all our productions from 1914-30 inclusive. The type of number plate that will be required will depend entirely upon the lighting equipment that is fitted to the machine, irrespective of the year of manufacture or the horse power.

Component No.	25-7352	for Acetylene Lighting Set.
"	"	25-7357 " Lucas Magdyno Lighting Set.
"	"	25-7362 " M.L. Lighting Set.
"	"	25-7363 " Miller and Lucas (early type) Lighting Set.
"	"	25-7367 " B.T.H. Lighting Set.

For any one of these new number plates a special bracket (of which there are four types) will be required, and these are listed under component numbers 15-7371, 15-7372, 15-7373 and 15-7374.

Bracket 15-7371 is suitable for all types of machines irrespective of horse power and year of manufacture with the following exceptions, when the brackets 15-7372, 15-7373 or 15-7374 must be used.

1920 & 21	6 h.p.	Bracket No. 15-7372.
1922 & 23	8 h.p.	" " "
1925	9.86 h.p.	Colonial	" " "
1929	3.49	" Stan. O.H.V.,	4.93 h.p. Stan.			" " 15-7373
		S.V., & 5.57 h.p. Stan.	S.V.			" " 15-7374
1929	7.70	" Light	" " 15-7374

With each bracket of either pattern, two bolts—component number K132 (plated) or 15-232 (black) with suitable nuts, component number EB113 (plated) or 15-234 (black) and spring washers, component number K197—will be necessary.

The retail price of any of the new type number plates complete with either type bracket, and the necessary bolts, nuts, and washers, is 2s. 10d., postage extra.
